

Update

Fall of 2019

Idaho Fish & Game has spent the last couple of seasons working on improving the historical viability of Stonebraker Ranch.

In 2018 a reliable water source was reestablished and developed to provide safe water to the ranch.

In 2019, The coral was relocated and rebuilt. It now sits north of the barn.

All the outbuildings and original ranch has were oiled to preserve them.

Workers have been diligent in trimming the grasses and landscape around the outbuildings as well as the airstrip.

In 2019, new posts and rails reestablished the perimeter fence

Future plans:

Caretaker for the
2020 season

Preservation of
equipment and barn

Access from Chamberlain Basin for landing aircraft with a 20 minute walk
